

# Product Data Sheet

## **FURST FORCE™ RECEIVER**

### A **6-IN-1** NUTRITIONAL SUPPLEMENT

#### Description:

McNess FURST FORCE™ RECEIVER is a unique oral drench that utilizes a proprietary blend of nutritional technologies to support optimum health and performance in older calves and feedlot animals upon receipt at the feed yard. Each 2.5 liter container holds 80 individual doses and comes with a strap and a ventilated cap.

#### FURST FORCE™ RECEIVER delivers:

1. Three specific strains of probiotic bacteria (*B.pumilus*, *B.subtilis* and *B.licheniformis*) with a concentrated yeast-based fermentation extract that contains many micro-nutrients **to support gut health**.
2. A specific blend of spray dried egg powder that is a source of polyclonal egg antibodies **to support health and immunity**.
3. Specific organic acids **to support digestion** as well as product stability.
4. Beta Glucans and MOS for **added health benefits**.
5. Vegetable fat as **an added energy source**.
6. Key botanical extracts, essential oils and flavorings **to support health and immunity**.

#### Key Responses that have been observed include:

- ✓ Cattle up on feed quicker and more aggressive to the bunks
- ✓ Better response to treatments
- ✓ Less pulls – chronics
- ✓ Less scours
- ✓ Decreased death loss
- ✓ Increased water intake

#### Directions of Use:

**Standard Use:** Give a 30 mL dose **orally** at receiving to supplement calves or feedlot cattle during the high stress transition period.

**Other Use:** Give a 30 mL dose **orally** to challenged cattle in the fall out or treatment pens to support the nutritional needs of the animal together with routine treatments. Continue for 2 to 3 consecutive days if necessary.
