

FURST STEP™ 22AA

AMINO ACID-BALANCED MILK REPLACER

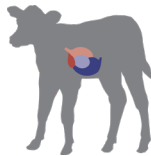

After multiple research trials and field testing, Furst-McNess Company has developed a modified-accelerated crude protein milk replacer that has proven to maintain calf starter intake, while increasing total nutrient intake by the calf. Feeding FURST STEP 22AA optimizes the protein-to-energy ratio, enhances calf growth and lowers cost-of-gains. Care is taken to encourage starter intake and rumen development, lowering the risk of post-weaning slumps common to many accelerated growth programs. Multiple uniquely-balanced functional ingredients are added to further promote growth and overall calf health. Consult your McNess sales representative to pair the best suited starter with this milk replacer to meet the goals of your operation.

THE FURST STEP TO:

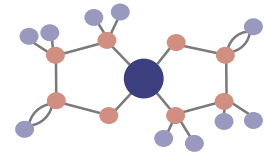

Lean Structural Growth

FURST STEP 22AA is amino acid amplified to deliver the lean gains needed to reach your herd replacement goals.

Support Gut Health

FURST STEP 22AA contains a blend of essential oils, prebiotics and probiotics to support prevention and aid in control of pathogens.

Immune Support

FURST STEP 22AA has multiple functional ingredients to support the immune system.

Fly Control

FURST STEP 22AA includes a larvicide, ClariFly®, to aid in prevention of flies from developing in and emerging from the manure, where flies lay their eggs.

Lower Cost Per Pound of Gain

FURST STEP 22AA is designed to allow for more gain per dollar of milk replacer. Because of the benefits of the product, it allows calves to reach their genetic potential.

Pathogen Defense

FURST STEP 22AA contains multiple functional ingredients for the prevention of scours and respiratory illness.

FURST STEP™ 22AA

AMINO ACID-BALANCED MILK REPLACER

FEATURES

- High-Quality, All-Milk Protein Ingredients
- Amino Acid-Balanced Equivalent to 24% Crude Protein
- Essential Oils
- Prebiotics (GOS)
- Probiotic Fortified
- Chelated Trace Minerals
- Coccidiosis Defense (Bovatec®)
- Fly Control (ClariFly®)
- Instantized Manufacturing Process for Easy Mixing
- 20% Fat
- Mildly Acidified
- Vitamin Enriched

FURST STEP 22/20 B-MOS-AA-CLARIFLY®
Product Code: CMR422 - 50 lb bag
