

FURST STEP™ 24/20

B-MOS-DFB (CLARIFLY®) MILK REPLACER

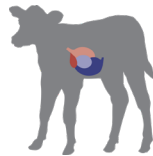

A 24% all-milk protein and 20% edible-grade fat formulation designed to support optimum lean growth during the milk feeding stage while preventing subsequent post-weaning lag. Works very well in auto-feeding programs. FURST STEP 24/20 B-MOS is well fortified with macro and trace minerals, vitamins, select prebiotic and is mildly acidified to enhance digestibility and gut health. Medicated with Bovatec® for the control of coccidiosis. A great choice for getting calves off to the best possible start and continued targeted growth rates. Consult with your McNess feeding specialist to pair this milk replacer with the starter best suited to your goals and operation.

THE FURST STEP TO:

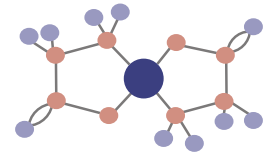

Building Consistent Results

FURST STEP 24/20 B-MOS is consistent in quality, digestibility, aroma and flavor to provide uniform results.

Support Gut Health

FURST STEP 24/20 B-MOS contains a unique combination of ingredients to support digestion, product stability and a healthy microflora balance.

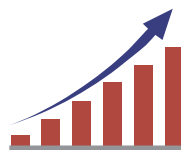

Immune Support

FURST STEP 24/20 B-MOS has the optimum balance and bioavailability of minerals to support the immune system.

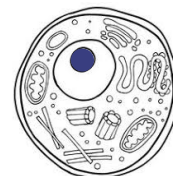

Fly Control

FURST STEP 24/20 B-MOS includes a larvicide, ClariFly®, to aid in prevention of flies from developing in and emerging from the manure, where flies lay their eggs.

Lean Structural Growth

FURST STEP 24/20 B-MOS has optimal protein-to-energy ratio for excellent lean tissue growth, while promoting starter intake for added growth and less risk of post-weaning lag.

Pathogen Defense

FURST STEP 24/20 B-MOS contains ingredients for the prevention of scours, respiratory illness and coccidiosis caused by *Eimeria bovis* and *Eimeria zuernii*.

FURST STEP™ 24/20

B-MOS-DFB (CLARIFLY®) MILK REPLACER

FEATURES

- High-Quality, All-Milk Protein Ingredients
- Edible Fat Ingredients
- 24% Protein
- 20% Fat
- Vitamin Enriched with A, B-Complex, C, D, E and K
- Fortified with Optimal Levels of Macro and Chelated Trace Minerals
- Prebiotic Yeast Cell Wall Extracts
