

McNess Bova Calf Cubes™

Furst-McNess presents a revolutionary way
to feed dry distiller's grains

100% dry distiller's grains with solubles are available in 7/16" mini cubes. These convenient mini's can be fed to calves, sheep, goats and deer. This patented process creates a hard distiller's mini-cube that won't crumble. McNess Bova Calf Cubes™ can be fed in a bunk or on the ground without wastage or wind losses.

Supplies may be limited, so to get on the list, contact Furst-McNess today to make sure you won't miss out on this revolutionary feed resource.

	Guaranteed Analysis (As Is)	Typical Analysis (As Is)	Typical Analysis (Dry Matter)
Dry Matter		90%	90%
Crude Protein	28.0%	28.0%	31.0%
Crude Fat	8.0%	9.0%	10.0%
Crude Fiber	10.0%	6.2%	6.9%
Phosphorus	0.70%	0.75%	0.85%

Why Bova Calf Cubes over traditional range cubes?

- **Less Waste**
- **High Energy**
- **Higher Protein**
- **High Phosphorus**

Available in bulk truck loads or totes.
