

# Resilience™

# Product Profile

Comprehensive defense when health challenges are high

## Key Benefits

- Promotes protection from harmful mold metabolites and bacterial pathogens
- Restores and maintains healthy rumen function
- Enhances fiber and starch breakdown
- Guards against hind-gut fermentation
- Maintains feed intake and manure consistency
- Supports digestion, nutrient absorption and energy use
- Balances gut microflora
- Defends gut barrier function and health
- Promotes overall health and productivity

## Product Description

- A comprehensive combination of ingredients reinforcing the total tract health and performance of dairy cattle and calves when diets are changing or challenged by multiple environmental factors (molds, yeasts, pathogens, metabolites and stress)

## Packaging & Form

- 50 pound multi-wall paper bags
- Fine gray powder with faint yeast aroma

## Storage

- Store in a cool dry place in original packaging
- Use within one year from date of purchase

Product Codes:

**260600** 50 pound bag

Resilience™ includes Core Technologies provided by Micron Bio-Systems

## Features

- Internationally-proven live cell yeast
- Five select strains of probiotic bacillus
- Targeted mold metabolite deactivating enzymes
- Concentrated source of MOS and yeast metabolites
- Select antimicrobial enzyme activities
- Targeted fiber and starch degrading enzymes
- Exclusive herbal extract
- Both microbial and mold metabolite deactivating clays

## Feeding Rate

- Feed 28 to 56 grams per head per day blended into the TMR based on degree of challenge, age of animals and stage of lactation
- Consult your nutritional advisor for specific recommendations

## Typical Analysis

- Crude Protein min 9.0%
- Crude Fat, min 2.5%
- Crude Fiber, max 6.0%
- Saccharomyces cerevisiae NCYC R404 @  $3.57 \times 10^8$  cfu/g
- Proprietary probiotic bacteria @  $1.07 \times 10^8$  cfu/g
