

# Equalize™ Swine Product Profile

For all classes of swine

Make the right decision to manage your feed quality.

## Key Benefits

- Complete four-part solution for maintaining feed quality for all classes of swine
- Combines the power of:
  - Live yeast to support gut health
  - Yeast cell walls for ability to bind toxins
  - Unique polar clays that have binding capacity for polar molecules
  - Specific enzymes that improve feed quality
- Maintain feed intake
- Maintain growth and reproduction through optimal nutritional intake
- Live yeast and yeast cell walls have been shown to support a stronger immune system

## Product Description

- Technology developed in the United Kingdom and tested in real production across the world in North America, Europe and Asia under many different environments.
- The live yeast in Equalize™ Swine is an exclusive and proprietary strain that has been selected for its unique traits.
- Through extensive in vitro work, a unique and specific blend of enzymes have been identified to improve feed quality.

## Label Indications & Mixing Directions

- No label restrictions
- Sow Rations
  - 2 to 4 pounds/ton in gestation
  - 2 to 4 pounds/ton in lactation
- Nursery Rations
  - 2 pounds/ton
- Finishing Rations
  - 50 to 150 pounds weight 2 pounds/ton
  - 150 pounds to market weight 1 pound/ton

## Packaging

- 40 pound (18.1 kg) bags

## Product Formulation

- Free-flowing fine particle meal

## Regulatory Status

- Natural feed supplement that uses only AAFCO-approved ingredients
- Not for human consumption

## Storage & Handling

- Store in a cool, dry, well-ventilated place
- Avoid contact with skin and eyes
- Avoid inhalation

Note: Always review Safety Data Sheet (SDS) prior to handling.

Product Codes:

**645915** 40 pound bag

## Step 1

**Inspect all bags or totes to ensure all are intact.**

- 40 pound bags with 50 bags per pallet

## Step 2

**Store in a cool, dry, well-ventilated place. Keep out of reach of children.**

## Step 3

**Prior to use, put on appropriate Personal Protective Equipment (PPE), which may include, but not limited to:**

- Eye/face protection
  - Safety glasses or chemical goggles
- Skin protection
  - Gloves and adequate body-covering protective clothing
- Respiratory protection
  - When handling, keep away from the top of the bag when opening to avoid direct exposure to nose, eyes and mouth.

Note: Review the Safety Data Sheet (SDS) before product use

## Step 4

**Weigh product accurately and precisely when making feed.**

- If putting directly into the bin, place metal ball in the micro bin when mixing product to maintain flow.
- Feeding Directions:
  - Sow Rations
    - 2 to 4 pounds/ton in gestation
    - 2 to 4 pounds/ton in lactation
  - Nursery Rations
    - 2 pounds/ton
  - Finishing Rations
    - 50 to 150 pounds weight 2 pounds/ton
    - 150 pounds to market weight 1 pound/ton
