

# Defend XT

*For nursery and finishing pigs*

## Product Profile

**Make the right decision to manage your feed quality.**

### Key Benefits

- Simplified three-part solution for maintaining feed quality for nursery and finishing pigs
- Combines the power of:
  - Unique preservative Sodium Metabisulfite
  - Yeast cell walls for ability to bind toxins
  - Unique polar clays that have binding capacity for certain toxins
- Maintain feed intake
- Maintain growth and reproduction through optimal nutritional intake
- Lower cost application for finishing diets

### Product Description

- Unique capacity of yeast cell walls in combination with unique clays for their binding capacity
- Unique application of sodium metabisulfite for feed preservation demonstrated in research by Kansas State University

### Label Indications & Mixing Directions

- No label restrictions
- Nursery Rations
  - 5 to 10 pounds/ton
- Finishing Rations
  - 50 to 150 pounds weight 5 to 10 pounds/ton
  - 150 pounds to market weight 5 to 10 pounds/ton

### Packaging

- 50 pound (22.7 kg) bags

### Product Formulation

- Free-flowing fine particle meal

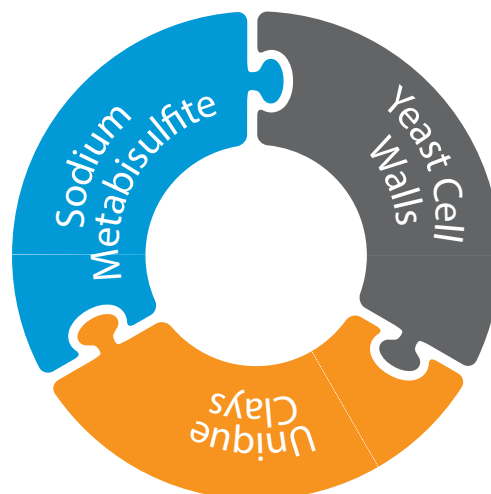

### Regulatory Status

- Natural feed supplement that uses only AAFCO-approved ingredients
- Not for human consumption

### Storage & Handling

- Store in a cool, dry, well-ventilated place.
- Avoid contact with skin and eyes.
- Avoid inhalation.

Note: Always review Safety Data Sheet (SDS) prior to handling.

Product Codes:

**645905** 50 pound bag

### Step 1

**Inspect all bags or totes to ensure all are intact.**

- 50 pound bags with 40 bags per pallet

### Step 2

**Store in a cool, dry, well-ventilated place. Keep out of reach of children.**

### Step 3

**Prior to use, put on appropriate Personal Protective Equipment (PPE), which may include, but not limited to:**

- Eye/face protection
  - Safety glasses or chemical goggles
- Skin protection
  - Gloves and adequate body-covering protective clothing
- Respiratory protection
  - When handling, keep away from the top of the bag when opening to avoid direct exposure to nose, eyes and mouth.

Note: Review the Safety Data Sheet (SDS) before product use

### Step 4

**Weigh product accurately and precisely when making feed.**

- If putting directly into the bin, place metal ball in the micro bin when mixing product to maintain flow.
- Feeding Directions:
  - Nursery Rations
    - 5 to 10 pounds/ton
  - Finishing Rations
    - 50 to 150 pounds weight 5 to 10 pounds/ton
    - 150 pounds to market weight 5 to 10 pound/ton
