

Equalize™ Poultry Product Profile

For all classes of poultry

Four-part Synergistic Solution for Feed Quality Concerns

Key Benefits

- Maintains feed intake and growth rate during challenged conditions
- Sustains feed conversion and product efficiency
- Boosts egg quality (egg shape index, yolk height, Haugh unit, shell weight)
- Supports fertility and hatchability in breeders
- Reduces ammonia emissions

Product Description

- A species-specific feed supplement designed to achieve and maintain the production goals of poultry farms during feed toxins and other related challenges. Its unique combination of nutritional components works synergistically to maintain performance of birds when consuming feed of compromised quality.
- A four-part synergistic solution:
 - **Adsorbs** mycotoxins that are polar and able to electrostatically bind to mineral elements
 - **Breaks** the ring-like structure of some mycotoxins making them less toxic and more prone to get captured
 - **Captures** and degrades non-polar mycotoxins and metabolites facilitating their excretion
 - **Nourishes** the birds during stress conditions by allowing greater access to critical nutrients and energy.
- Its proprietary ingredients protect and promote the saprophytic microbiome of the bird's gut and help diminish the energy drag of gut permeability, immune suppression and compromised feed intakes as a result of mycotoxin-contaminated feed.

Label Indications & Directions

- No label restrictions
- Broilers & Layers: 0.5 to 2.5 pounds/ton of feed
- Turkeys: 1 to 3 pounds/ton of feed
- Breeders & Ducks: 2 to 3 pounds/ton of feed
- Other Birds: Consult your Furst-McNess Representative

Packaging

- 40 pound (18.1 kg) bags
- 2000 pound (907.2 kg) totes

Product Formulation

- Free-flowing fine particles

Regulatory Status

- Natural feed supplement that uses only AAFCO-approved ingredients
- Not for human consumption

Storage & Handling

- Store in a cool, dry place
- Avoid contact with skin and eyes
- Avoid inhalation

Note: Always review Safety Data Sheet (SDS) prior to handling.

Product Codes:

645917 40 pound (18.1 kg) bag

Totes available upon request

Equalize™ Poultry

For all classes of poultry

Standard Operating Procedure

Step 1

Inspect all bags or totes to ensure all are intact.

- 40 pound bags with 50 bags per pallet

Step 2

Store in a cool, dry, well-ventilated place. Keep out of reach of children.

Step 3

Prior to use, put on appropriate Personal Protective Equipment (PPE), which may include, but not limited to:

- Eye/face protection
 - Safety glasses or chemical goggles
- Skin protection
 - Gloves and adequate body-covering protective clothing
- Respiratory protection
 - When handling, keep away from the top of the bag when opening to avoid direct exposure to nose, eyes and mouth

Note: Review the Safety Data Sheet (SDS) before product use

Step 4

Weigh product accurately and precisely when making feed

- If putting directly into the bin, place metal ball in the micro bin when mixing product to maintain flow
- Dosage:
 - Broilers & Layers: 0.5 to 2.5 pounds/ton of feed
 - Turkeys: 1 to 3 pounds/ton of feed
 - Breeders & Ducks: 2 to 3 pounds/ton of feed
 - Other Birds: Consult your Furst-McNess Representative
