

Essential support for lactating and gestating sows.

### Key Benefits

- Improves lactation feed intake
- Supports sow and piglet health
- Improves sow lifetime productivity by minimizing weight loss in lactation
- Increases amount and quality of milk (increased fat and lactose content\*) produced
  - More milk supports better piglet uniformity
- Provides piglets with additional energy each day (amount of milk, fat content of milk)
- Supports piglet growth rate
- Supports energy and nitrogen digestibility in gestation and lactation to reduce feed cost
- Reduces ammonia production

### Product Description

- A source of natural and artificial flavor from the fenugreek plant
- Contains a flow agent
- A consistent source of a natural extract produced in North America
- Low inclusion of 1 to 3 pounds per ton makes formulation into any nutrition program straightforward

### Packaging

- 50 pound (22.68 kg) bags

### Label Indications & Mixing Directions

- 1 pound per ton in gestation
- 3 pounds per ton in lactation

### Product Formulation

- Free-flowing fine particle meal

### Regulatory Status

- Natural feed supplement that uses only AAFCO-approved ingredients
- Not for human consumption

### Storage & Handling

- Store in a cool, dry, well-ventilated place
- Avoid contact with skin and eyes
- Avoid inhalation

Note: Always review Safety Data Sheet (SDS) prior to handling.

Product Code:

**604515** 50 pound bag

Available in totes by request

\* Graham et al (2018), Midwest American Society of Animal Science, Omaha, NE

## Step 1

**Inspect all bags or totes to ensure all are intact.**

- 50 pound bags with 40 bags per pallet

## Step 2

**Store in a cool, dry, well-ventilated place. Keep out of reach of children.**

## Step 3

**Prior to use, put on appropriate Personal Protective Equipment (PPE), which may include, but not limited to:**

- Eye/face protection
  - Safety glasses or chemical goggles
- Skin protection
  - Gloves and adequate body-covering protective clothing
- Respiratory protection
  - When handling, keep away from the top of the bag when opening to avoid direct exposure to nose, eyes and mouth.

Note: Review the Safety Data Sheet (SDS) before product use

## Step 4

**Weigh product accurately and precisely when making feed.**

- If putting directly into the bin, place metal ball in the micro bin when mixing product to maintain flow.
- Feeding Directions:
  - Sow Rations
    - 1 pound per ton in gestation
    - 3 pounds per ton in lactation
