

Viribus™ T

For Turkeys

Product Profile

For Optimal Bird Performance
Enables birds to successfully adapt to stress factors

Key Benefits

- All-natural nutritional supplement specially designed for turkeys
- Proven in live production
- Essential driver for feed intake and feed conversion leading to improved growth rate
- Supports energy and protein utilization
- Promotes uniformity and livability
- Consistent flock-to-flock growth rates for optimized scheduling
- Decreases ammonia shedding
- Tool for reducing added fat in the diet

Product Description

- A proprietary feeding ingredient specifically designed for turkeys that provides critical vitamins, minerals and exclusive phytonutrients. The proprietary combination of ingredients included in Viribus™ T enables the turkeys to successfully adapt to nutritional, environmental and health stress factors.

Label Indications & Mixing Directions

- No label restrictions
- As a top dress to improve performance:
 - 1.5 to 5 pounds per ton from placement to finish
- Accelerated feeding and/or during health challenges:
 - 2.5 to 5 pounds per ton from week 10-12 to finish
- Application rates can be customized based on individual farm needs.

Packaging

- 50 pound (22.7 kg) bags
- 2000 pound (907.2 kg) totes

Product Formulation

- Free-flowing fine particle meal

Regulatory Status

- Natural feed supplement that uses only AAFCO-approved ingredients
- Not for human consumption

Storage & Handling

- Store in a cool, dry, well-ventilated place
- Avoid contact with skin and eyes
- Avoid inhalation

Note: Always review Safety Data Sheet (SDS) prior to handling.

Product Codes:

- 650110** 50 pound bag
- 150111** 2000 pound tote

Step 1

Inspect all bags or totes to ensure all are intact.

- 50 pound bags with 40 bags per pallet, or 2000 pound tote

Step 2

Store in a cool, dry, well-ventilated place. Keep out of reach of children.

Step 3

Prior to use, put on appropriate Personal Protective Equipment (PPE), which may include, but not limited to:

- Eye/face protection
 - Safety glasses or chemical goggles
- Skin protection
 - Gloves and adequate body-covering protective clothing
- Respiratory protection
 - When handling, keep away from the top of the bag when opening to avoid direct exposure to nose, eyes and mouth.

Note: Review the Safety Data Sheet (SDS) before product use

Step 4

Weigh product accurately and precisely when making feed.

- If putting directly into the bin, place metal ball in the micro bin when mixing product to maintain flow.
- Dosage:
 - As a top dress to improve performance: 1.5 to 5 pounds per ton from placement to finish
 - Accelerated feeding and/or during health challenges: 2.5 to 5 pounds per ton from week 10-12 to finish.
- Application rates can be customized based on individual farm needs. For customized application, contact your Furst-McNess representative.
