

Bova-Breeder Premier Availa[®] 4

Product Profile

Prime your herd for better performance

Key Benefits

- Provides high levels of available trace minerals and vitamins
- Reduces breeding and cleaning problems
- Helps improve reproductive performance
- Increases immune competency
- Minimizes stress
- Increases calf value via larger animals at weaning

Product Description

- Specially-formulated to be palatable for consistent consumption on pasture
- Designed to be fed straight from the bag
- Available in multiple formulations to meet various nutritional needs. Including MOS to support gut health and integrity, whose major benefits are:
 - Reduces infection risk
 - Supports beneficial microflora
 - Improves absorption and digestive capacity
- Includes Zinpro Availa[®] 4, which provides organic trace minerals that have been shown to:
 - Help cows prepare for and recover from pregnancy, calving and lactation
 - Improve immune systems in calves
 - Lower calving interval for cows
 - Improve response to vaccines
 - Reduce morbidity
 - Prime calf for better performance in feedyard

Packaging & Form

- 50 pound bag

Feeding Directions

- Begin feeding these minerals 60-75 days before stress periods such as calving or breeding.
- Average daily consumption should be 2 to 2.7 ounces per head, per day.
- Place in a clean, dry feeder near a feed or water source. No more than a 7 to 10-day supply should be put out at one time. This will assure freshness and help to maintain adequate consumption.
- Provide one mineral feeder per 15 to 20 head of animals.
